

Measurement Science and Technology

This is to certify that the article

A simple 3D plasma instrument with an electrically adjustable geometric factor for space research

by U Rohner, L Saul, P Wurz, F Allegrini, J Scheer and D McComas

has been selected by the editors of *Measurement Science and Technology* for inclusion in the 'Highlights of 2011–2012' collection. Papers are chosen on the basis of referee endorsement, novelty and scientific impact.
