The authors regret that a graphical labeling error has occurred in Fig. 1 in the color bar. The scale multiplier should be $10^6 \text{ cm}^{-2} \text{ s}^{-1} \text{ sr}^{-1}$. In Fig. 2, the ordinate axis was mislabeled. The decade tic marks should be labeled 10^4 , 10^5 and 10^6 . The corrected figures are shown below.

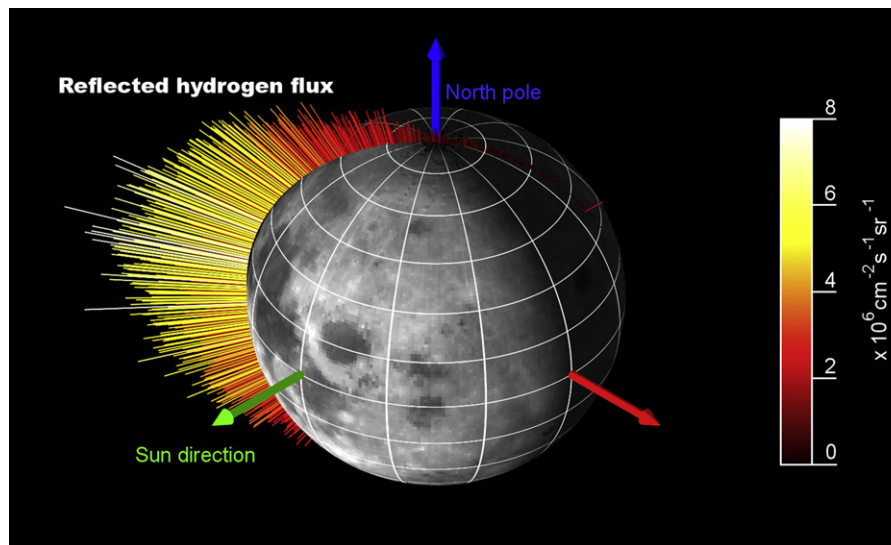

Fig. 1
